Autoclavable Bioreactor, borosilicate glass vessel with round bottom having 6.0 litre total volume and working volume 4.0 litre and condenser with 0.22 micron PTFE filter for out gas and air filtration. Water inlet and out let for circulation of cold water to maintain the reaction volume. Should be Supplied with compatible computer system. • Control Panel: Should be Microcontroller based Controller having controls for fermentation parameters i.e. RPM/ Temp. / pH and consisting of Anti Foam Sensor.230V ± 10% V, 50 Hz, AC. • Motor: Top Driven Magnetically coupled DC motor • Fermentation kit having Air pump, Rotameter 0-5LPM variable with online PTFE 0.22 micron Hydrophobic Filter, autoclavable./ Tubing/ Clamps/ Filters/ Acid Base Reagent Bottles etc are to be supplied • Peristaltic pumps:- Total-4 No.fixed speed peristaltic pumps for Acid/Base dosing, one each for Antifoam addition and Nutrients addition are required. • pH Controller and Probe:- Requirement Online gel filled Sterilizable at 121°C at 15 psi pH probe with transmitter and two numbers peristaltic pumps for Acid/ Base Dosing, display of pH in the TFT with auto pH control (2-14, Control range:0.1),via PID links to pumps or gases and adjustable dead band. • Online D.O. probe: Galvanic Type DO probe with Glass Housing, Sterilizable at 121°C , 15 psi with DO cable and Monitor. • Touch Screen Based Controller: PLC Touch Screen Programmable Logic Control/ Microcontroller based system for pH/ /RPM/Agitation/Antifoam/Air flow and PID control for temperature better than Modular microcontroller fermenters. 	01	One month from notification of award of contact	Meerut	Yes

	<ul style="list-style-type: none"> • SCADA Software: SCADA software for monitoring & display, pH/Temp/DO2 and Agitation. Or can supervisory control of multi Fermenters parallel communication through computer. System can be monitored and control from a host computer for getting Trends/ Graphics/ History and comparison of data with current vs. previous. • Air Compressor: Air compressor with auto cut off facility. • Sparger Type: - Ring type air sparger with fine pin holes provided towards bottom of the vessel. • Agitation:-Digital RPM indication with variable speed from 50-1200 RPM and control accuracy of + 5RPM. • Impellers:-Ruston turbine type impellers, 4 blades two impellers, removable type and SS316L. Four baffles in built SS316 removable type. • Temperature control: - Digital Temperature Indicator cum controller with Temperature Range: 0-100^o C, Temperature Control Accuracy ±0.1 Deg C. with PID Control. • Heating/Cooling:-Inbuilt heating rod of 200 watt in SS 316L housing for efficient temperature increase. Cooling SS coil loop provided for the circulation of chilled/cold water in side the vessel for lowering the temperature below ambient with chiller-circulator • Antifoam Sensor/ Foam Level Controller: SS 316L Conduction probes for automatic Level Foam control. Time Proportionate Control. Provided with one number peristaltic pump with antifoam sensor and cable. • Reports and Logs: Inbuilt memory to store the data in the control panel and can be viewed online on TFT Display. • Data logging: System will have USB/RS232 Serial Communication Port to transfer the data to computer in excel format with SCADA software. • Salient Features :- (i) Magnetically coupled Drive without any need for Mechanical Seal. Thus removing the chances of contamination in case of leakage through mechanical seal. Moreover it also removes the expenses of removal of Mechanical seal. The magnet used is highly Thermal stable thus there is no impact on magnetism due to repeated Autoclaving and thus 				
--	--	--	--	--	--

	<p>does not require any replacement.</p> <ul style="list-style-type: none"> • (ii) Password Protection: - The Controller is having Password Protection to stop the unauthorized usage of the Fermenter or stopping unauthorized persons from changing the controlling parameters. • (iii) Large TFT/HMI Touch screen display (Better and advanced than LCD Display) • (iv) Microcontroller system having very Small and single Transmitter card for measurement of parameters. • (v) Auto restart in case of Power Failure. • (vi) Audio/ Visual Alarms for Deviation in Parameters within Prescribed Limits. • (vii) Sensor/ Probes alarms in case of Non connection or malfunctioning of the sensor. • (viii) The vessel can be used for both for Microbial Fermentation as well as cell culture applications. • (ix) Shell in Tube Type Condenser made in SS316 provided on the Top plate with Exhaust for removal of gases and In-out nozzles provided on condenser jacket to cool down the vapours so as to avoid dehydration of the culture. Condenser having 0.22 micron filter to avoid outside contamination entering the vessel. • (x) One spare port is also given on Top plate. • (xi) Software for Data logging: System will have SCADA Software/USB/RS232 Communication Port to transfer and save the data in the PC. • System would be provided with standard Borosilicate acid/base addition bottles with PTFE filters of 25 mm dia, silicone tubing, SS clamps. • One-Year full onsite warranty for the product • Should be CE/ISO/FDA Certified

** Where ISI certification marked goods are available in market, procurement should generally be limited to goods with those or equivalent marking only.*

146. Government of India has received a credit from the International Bank of Reconstruction and Development (IBRD) towards the cost of the National Agricultural Higher Education Project (NAHEP) and intends to apply part of the proceeds of this credit to eligible payments under the contract for which this invitation for quotations is issued.

147. The NAHEP Project is being implemented by Indian Council of Agricultural

Research(ICAR) which is an autonomous society registered under the Societies Registration Act.

148. Bid Price

- a) The contract shall be for the full quantity as described above. Corrections, if any, shall be made by crossing out, initialing, dating and re writing.
- b) All duties, taxes and other levies payable on the raw materials and components shall be included in the total price.
- c) Sales tax in connection with the sale shall be shown separately.
- d) The rates quoted by the bidder shall be fixed for the duration of the contract and shall not be subject to adjustment on any account.
- e) The Prices shall be quoted in Indian Rupees only.

149. Each bidder shall submit only one quotation.

150. Validity of Quotation

Quotation shall remain valid for a period not less than 30 days after the deadline date specified for submission.

151. Evaluation of Quotations

The Purchaser will evaluate and compare the quotations determined to be substantially responsive i.e. which

- (y) are properly signed ; and
- (z) conform to the terms and conditions, and specifications.

The Quotations would be evaluated separately for each item.

Sales tax in connection with sale of goods shall not be taken into account in evaluation.

152. Award of contract

The Purchaser will award the contract to the bidder whose quotation has been determined to be substantially responsive and who has offered the lowest evaluated quotation price.

8.1 Notwithstanding the above, the Purchaser reserves the right to accept or reject any quotations and to cancel the bidding process and reject all quotations at any time prior

to the award of contract.

- 8.2 The bidder whose bid is accepted will be notified of the award of contract by the Purchaser prior to expiration of the quotation validity period. The terms of the accepted offer shall be incorporated in the purchase order.
153. Payment shall be made immediately after delivery of the goods.
154. Normal commercial warranty/ guarantee shall be applicable to the supplied goods.
155. You are requested to provide your offer latest by 17.00 hours on 14 /09/ 2020.
156. We look forward to receiving your quotations and thank you for your interest in this project.
